

IMMERSION
VRELIA

The **GO** Fact Sheet

THE VISION ImmersiON-VRelia is providing entire, life changing, Virtual and Augmented Reality experiences through The GO. The GO is a smartphone accessory that transforms it to a Head Mounted Display (HMD) that is accessible, affordable, and beneficial for the average person to incorporate into their everyday life.

TARGET PRICE: 139 \$

AVAILABILITY Available now to buy in our website and some retailers around the world.

UNIVERSAL PLATFORM Accommodates smartphones from 4" to 6" of different brands with exchangeable inserts specific to each phone model.

ADVANTAGES

- **FOV** The GO delivers a wide degree field of view, depending on the smartphone and the user's diopter settings.
- **CUSTOMIZATION** ImmersiON-VRelia provides a Software Development Kit (SDK) designed to identify the phone type and capabilities, and render the environment for the best experience, balancing performance and quality.
- **CONTENT** The GO is backed by a vision and a platform that makes it applicable for ALL types of users and industries - not just those in a certain sector such as gaming, medical, etc.
- **THE ALTERSPACE** The GO's content will come from The AlterSpace, which is the content platform that enables deployment of content of any kind and from every publisher, from the major Hollywood studios to small content architects and app developers to deliver truly immersive experience.
- **DITCH THE GLASSES** The GO adjusts for each person's eyesight and separation of eyes – no need for glasses – users can adjust the optics adjust to match their prescription.

ADDITIONAL SPECS

- Eye separation adjustment (IPD)
- 7 oz (230 g) without the phone
